<b>VSO</b>	Voluntary Services Overseas

## **Foreword**

The development of this Directory is considered among the first steps to improving health service provision and HIV&AIDS especially, where further assessment across the whole country has been conducted by UPHLS staff into existing institutions that provide services to PWDs – in terms of quantity to come up with a detailed list of institutions that provide services to PWDs per types of disability in Rwanda.

The purpose of this Directory is to facilitate the user to know, contact, locate and/or find different institutions that provides services to PWDs per types of disability countrywide as well as allowing PWDs institutions' name and details to be found easily. The information shared in this Director varies from the name of institution to types of institution, types of services provided, types of disability served, location, contacts, creation date, etc.

In documenting different services offered by PWDs institutions, this resource aims to raise the visibility of disability related services within a number of stakeholder communities, including public and private sector administrators, funding / development agencies, Non-governmental Organizations, etc. Collecting this information from PWDs institutions across Rwanda will allow further identification of gaps, challenges, weaknesses, strengths and opportunities to better include PWDs in country development agenda.

The Directory will contribute or facilitate the collaboration among PWDs institutions as well as among PWDs institutions and development actors that share same values / mission / vision, especially those in health promotion or human rights. It is expected that different actors will use the Directory to get information about PWDs institution, find mutually beneficial ways to work together, and ultimately improve their work.

The Directory could not have been produced without the financial support of the Centers for Disease Control and Prevention (CDC) and, technical support from Disabled People Organizations (DPOs), the National Council of Persons with Disabilities, National Union of Disabilities Organizations in Rwanda (NUDOR), Rwanda Biomedical Center (RBC), Handicap international - Program Rwanda and UPHLS Staff at National and District level.

## INSTITUTIONS THAT PROVIDE SERVICES TO PERSONS WITH DISABILITIES

### A

#### ABADAHIGWA Blind Veterans
